OMNI CABLE ENHANCES SPECIALTY INVENTORY

(West Chester, PA)...Omni Cable' has introduced flat festoon cable into their extensive line of specialty wire and cable. Omni Cable stocks 16 AWG through 10 AWG festoon cable, from 4 to 12 conductors.

Festoon cable is designed for use with festoon systems for the conveyance of electrical power and control to cranes, hoists, and any other equipment which travels with a lateral traversing motion. Festoon cable is used to ensure that a machine in motion continues to receive electrification and compressed air or hydraulic fluid during operation.

“Festoon cable is yet another niche product that Omni Cable can service electrical distribution with.” comments Pete Comber, EVP of Sales and Marketing. “This addition to our product line assists Omni Cable in being the single source for all specialty wire and cable.”

Omni Cable, an ESOP company, is a master distributor of specialty wire and cable sold exclusively through electrical and electronic distribution. Other stocking locations include Philadelphia, PA; Atlanta, GA; Chicago, IL; Denver, CO; Houston, TX; Los Angeles, CA; San Francisco, CA; St. Louis, MO and Tampa, FL.
