

Why Purchase Circuit Breakers from OmniCable?

Availability, Accessibility, Traceability

AVAILABILITY

OmniCable now sells Siemens circuit breakers in addition to Eaton & Square D to electrical distributors providing them with authorized, safe, and reliable products through a single source. OmniCable is an extension of your warehouse with an extensive inventory of circuit breakers and accessories. Circuit breakers are available 24 hours a day, 365 days a year and shipped the same day.

ACCESSIBILITY

It is all about safety when purchasing an AUTHENTIC product from an AUTHORIZED source. Unauthorized sources rely on deception and aggressive pricing. Identifying counterfeit products is extremely difficult. They are made with inferior materials, inaccurate manufacturing processes, and without functional or safety testing.

TRACEABILITY

An authentic product is only sold through an authorized source who can provide full TRACEABILITY. Purchasing products from unauthorized sources significantly increases your risk of receiving counterfeit, altered, tampered, or refurbished products. Unauthorized sources cannot provide traceability.

Don't expose your company to increased RISK and LIABILITY by purchasing suspect products from unauthorized sources. Your business reputation is on the line, so don't put your customers in an unsafe environment and exposing your company to unnecessary liability. Products purchased through unauthorized sources do not carry the factory warranty which leaves the distribution channel open to liability.

SIEMENS

OmniCable has signed an agreement with Siemens to serve as an authorized genuine source of their circuit breakers for electrical distributors.

Applications

Types of equipment where circuit breakers are installed - Commercial Switchboards, Panelboards, Motor Control Centers, and Control Panels/Enclosures. Residential Loadcenters and Meter Centers.

SIEMENS

Residential Circuit Breakers

QP Frame (QP, QPH, HQP, QT)
Amperage Range: 10-125A

QN Frame (QN, QNH, HQN)
Amperage Range: 150-200A

MP Frame Murray
(MPT, MPHT, MPMT)
Amperage Range: 10-125A

MD Frame Murray
(MDT, MDHT, MDMT)
Amperage Range: 150-225A

General Purpose MCCBs

BQ Frame (BQ, BQH, HBQ)
Amperage Range: 15-100A

QR Frame (QR2, QRH2, QRH2, HQR2,
HQR2H)
Amperage Range: 100-250A

CQD Frame
Amperage Range: 15-100A 480V

NGG Frame (NGG, HGG, LGG)
Amperage Range: 15-125A 600V

Panelboard Mounting MCCBs

BL Frame (BL, BLH, HBL)
Amperage Range: 10-125A 240V

BQD Frame (BQD, BQD6)
Amperage Range: 15-100A 480V

NGB Frame
(NGB, NGB2, HGB, HGB2, LGB, LGB2)
Amperage Range: 15-125A 600V

Sentron Specialty MCCBs

Molded Case Switches
(BQ, ED, CED, FXD, HFXD,
CFD, JXD, HJXD, CJD, LXD, HLXD, CLD,
LMX, MXD, CMD, NXD, CND, PXD, RXD)
Amperage Range: 100-2000A

Magnetic Only ETI
Motor Circuit Protectors
(ED6A, CEDA, FXD, CFD, JXDA, CJD,
LXDA, CDD, LMXD, MXD, CMD)
Amperage Range: 1-800A

Sentron MCCBs

ED Frame (ED2, ED4, ED6, HED4,
HHED6, CED6)
Amperage Range: 15-125A

FD Frame
(FD6A, HFD6, HHFD6, CFD6)
Amperage Range: 70-250A

JD Frame (JXD2, JD6A, HJD6A,
HHJD6A, CJD6A)
Amperage Range: 200-400A

LD Frame
(LD6, HLD6, HHLD6, CLD6A)
Amperage Range: 250-600A

MD & LMD Frames (MD6, HMD6,
CMD6, LMD6, HLMD6)
Amperage Range: 400-800A

ND Frame (ND6, HND6, CND6)
Amperage Range: 800-1200A

PD Frame (PD6, HPD6, CPD6)
Amperage Range: 1200-1600A

RD Frame (RD6, HRD6)
Amperage Range: 1600-2000A

VL MCCBs

DG Frame (NDGA, HDGA, LDGA)
Amperage Range: 30-150A

FG Frame (NFGA, HFGA, LFGA)
Amperage Range: 40-250A

JG Frame (NJGA, HKGA, LJGA)
Amperage Range: 70-400A

LG Frame (NLGB, HLGB, LLGB)
Amperage Range: 150-600A

MG Frames (NMG, HMG, LMG)
Amperage Range: 200-800A

NG Frame (NNG, HNG, LNG)
Amperage Range: 300-1200A

PG Frame (NPG, HPG, LPG)
Amperage Range: 400-1600A

3VA MCCBs

3VA51 Frame (Thermal Magnetic)
Amperage Range: 15-125A

3VA52 Frame (Thermal Magnetic)
Amperage Range: 100-250A

3VA53 Frame (Thermal Magnetic)
Amperage Range: 200-400A

3VA54 Frame (Thermal Magnetic)
Amperage Range: 450-600A

3VA61 Frame (Electronic)
Amperage Range: 15-150A

3VA62 Frame (Electronic)
Amperage Range: 40-250A

3VA63 Frame (Electronic)
Amperage Range: 100-400A

3VA64 Frame (Electronic)
Amperage Range: 150-600A
