Medium Voltage Cable Accessories

For use with polymeric cables with voltage ranging from 5kV - 35kV

Cold Applied Medium Voltage Termination - CST

- Spiral holdout for quick and easy installation
- Extra-long stress cone aids in correct positioning and integrated void-filling mastic eliminates the need for silicone grease

Cold Applied Medium Voltage Joint - CSJA

- "All-in-One" design easy to install with minimal steps & short installation time
- Splices tape shield, wire shield, LC shield, UniShield, JCN, and flat strap cables
- Spiral holdout provides smooth installation with low release forces

Heat Shrink Medium Voltage Termination - HVT-Z

- TE's Raychem heat shrink technology yields the most robust termination available on the market today.
- Co-extruded one-piece termination conforms and sticks to irregular surfaces, providing moisture seals as well as electrical stress control

Heat Shrink Splice - HVS

- TE's Raychem heat-shrinkable shielded power cable splices are pre-engineered to offer a compact, low-profile installation with a minimum diameter buildup
- Heat-shrink feature allows kits to accommodate out-of-round, out-of-spec cable

Rubber Goods - 200A & 600A Elbows

- Designed to terminate underground cables to high-voltage apparatus such as transformers and switchgears
- Designed for use on extruded (XLPE or EPR) solid dielectric cable
- Fully shielded and fully submersible and meet the requirements of IEEE Standard 386

Low Voltage Cable Accessories

For use with cables with insulation rating up to 1000V

Cold Applied Splice Covers

- TE's Raychem RVS "roll-on" splice covers insulate and seal cable connections up to 1000V
- GelWrap water resistant wraparound splice closures insulate and seal buried electrical connections up to 1000V
- Gel In-Line Splice (GILS) kits offer a simple and fast method for splicing, insulating, and environmentally sealing low-voltage cables

Heat Shrink Splice Covers

- Heat shrink tubing available in thin wall, medium wall, and heavy wall
- TE's Raychem CRSM heat shrink wraparound sleeve fits a wide range of cable sizes and have an unlimited shelf life

Motor Connection Kits

- TE's Raychem GelCap splice cover kits quickly and conveniently insulate, seal, and protect stub splice connections up to 1000V
- GelCap 8 stub connection kits insulate, seal, and protect stub splice connections up to 8000V
- TE's Raychem MCK-5 Motor connection kit provides excellent insulation sealing and resistance to abrasion in motor connections up to 8.7kV

Molded Parts

- CBR Breakout Boots are heat shrinkable products used to seal multi-conductor cables & conduit
- ESC End Seal Caps for single conductor power cable up to 1000V
